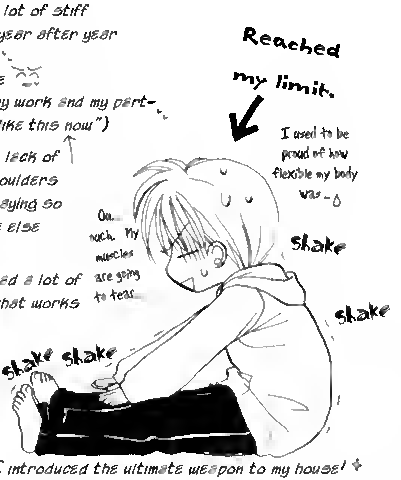
8 ME CHRONIC DISEASE...?

My body hurts all over. I've always had a lot of stiff shoulders but I think it's getting worse year after year (Recently around my shoulders and waist ^-) It might be called an occupational disease. At one point, my body hurt so much from my work and my part-time job that I thought "I'll probably die like this now")

It's probably a lack of exercise due to a lack of physical strength. I went to knead my shoulders vigorously (I'm good at massaging. I'm saying so myself (laugh)), but as I do it, someplace else starts hurting. Ugh.

My mother got stiff very easily, so I've had a lot of practice kneading shoulders. Right now, what works is having my mother do it.

Ah, having that sensei do it at the New Year's party felt good, too!! (What am I making other people do ^-) Thank you very much for that!!



Reached my limit.
I used to be proud of how flexible my body was -ㅁ
Ow... ouch. My muscles are going to tear.
